Report : Degree colleges and higher education institutes are suffering from dearth of students for quite a few years as learners are more and more inclined towards technical and skill based vocational education. This area is no exception from that. That's why the motivational lecture arranged for school students in Medgachi High school Foundation day celebration had a special need in current scenario. Principal, Prof. ( Dr.) Krishnendu Dutta, Government General Degree College Kalna-I gave a erudite lecture on the importance of Higher education is nation building and he also addressed that problem of students not perusing Science stream in higher education. He requested school authority to add science stream in their offered courses. He sighted examples of "Best Practices" that GGDC Kalna-I institute provide for their students and encouraged the school students to join in for higher education in more numbers. As the admission process is going on, it is to be seen how college is able to caters the demand of current NEP based CCFUP curriculum with all the infrastructural development and academic upliftment done in the college.
